Quality Principles Worksheet

The Quality Principles are a tool for active and collaborative thinking. We created this worksheet to help you work through the three areas and think about what quality looks like in the projects you are planning and programmes you are running. Take it into your planning meetings to focus conversations with partners and team members as you plan. Write your key indicators under each principle.

People
Participant Centred

Focus on Participant
Progression

Shared Ownership
& Responsibility

Activity

Purposeful, Active, Hands-On
& Reflective

Suitably Situated & Resourced

Collaboratively Planned,
Evaluated & Safe

Intention
Artistic & Professional

Relevant & Inclusive

Inspiring, Engaging & Challenging
